RE: *Intercontinental Terminals Company Litigation - Update*

Dear Clients,

Thank you for allowing our law firm to represent you and your families in this matter. The following message is privileged attorney work product information and a confidential attorney-client communication. This information is intended to only reach individuals that have signed a Power of Attorney agreement and are our clients.

Case Status as of April 22, 2019:

- Our Firm has already filed a lawsuit in Harris County, Texas
- A Temporary Restraining Order has been signed by the Court which requires ITC to preserve the scene and evidence at the site for inspection and testing by Plaintiffs' counsel and experts
- The scene/plant will be released for inspection, testing and photographing by Plaintiffs' counsel and experts in the near future
- ITC and Alice Richardson have filed an Answer to the lawsuit
- It is expected that the discovery process (exchange of written information between all parties) will begin following the inspection of the scene/plant

Moving Forward:

- It is very important that each client's symptoms have been diagnosed, treated and documented
- Please retain all receipts for your medical care and medication, as well as other expenses made necessary by ITC's fire and chemical release
- Our firm will provide you with monthly updates as to the status of your case, but feel free to e-mail our firm at itclawsuit@awtxlaw.com with any additional questions or concerns
- If your address, phone number or e-mail address change, please provide us with your updated contact information so that we can keep you informed about your case
